This opportunity is open to any contractor prequalified by Port KC (see Subcontractor Eligibility section below).

History

Port KC is a political subdivision authorized under Chapter 68, RSMo, and chartered by the City of Kansas City, Missouri. Port KC is governed by a Board of Commissioners appointed by the Mayor of Kansas City.

Port KC is granted broad governmental and business enterprise powers for the purpose of promoting economic development and job creation. The most important of these powers are:

- To acquire, own, construct, redevelop, lease, maintain, and conduct land reclamation, residential, commercial and mixed-use development, industrial parks, facilities, terminals, terminal facilities and any other type of port facility;
- To promote and expand inland and river port commercial throughput of cargo and freight;
- To identify and pursue redevelopment opportunities at blighted and historic preservation sites;
- To redevelop the Downtown Kansas City Riverfront to promote and develop new opportunities for residence, commerce and leisure; and
- To promote the full integration of multi-modal transportation assets to increase commercial opportunities locally, nationally and internationally.

Port KC’s statutory powers of issuing bonds, land reclamation and the ability to enter into contracts to implement its development projects make it a unique and influential agency.
